

JOHN SHERMAN,
Answers to the Gold
Standard Size.
Editor of the Cleveland Plain-
Dealer.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co., only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest, and is most largely used as "gives most general satisfaction."

Every gold coin ever made from 1732 to 1873 the only standard existing was 371 grains of gold.

Gold was then brought to and sent to the silver dollar unit.

Gold was brought to silver.

Gold was never sent to a standard silver unit.

All were simply made equal to the silver unit, and given full power.

After a half dozen tokens from 1732 to 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.

After 1873 there was no more than 371 grains of gold.
